## WORK EXPERIENCE

### **Rocky Mountain Music Repair - Broomfield, CO**

*Head Instrument Repair Technician | 2018-2022*

- Supervise repair technician team via testing and inspecting 10+ instruments weekly, with a focus on quality assurance and meeting customer deadlines
- Incorporate 3D drawing/printing for discontinued and proprietary instrument parts, utilizing precise measurements and detailed documentation practices
- Assemble instruments of greater than 40 parts with precise tolerances
- Fabricate replacement and custom parts with machine lathe, grinder, bench motor, and hand fitting
- Assemble and fabricate components using soft and hard solders

### **Baum's Music - Albuquerque, NM**

*Lead Instrument Repair Technician | 2014-2018*

- Presented at NAPBIRT National Conference to introduce the use of 3D printing in the instrument repair field
- Increased customer satisfaction through improved quality and timeliness of repairs
- Refurbished and repaired instruments by diagnosing malfunctions, investigating for anomalies, and replacing/repurposing parts
- Restored instruments by cleaning, soldering, removing dents, and replacing materials
- Organized and maintained large inventory of shop materials, parts, and tools

## ACADEMIC BACKGROUND

*Diploma in Band Instrument Repair | 2013-2014*

**Minnesota State College - Southeast Technical - Red Wing, MN**

*Bachelor of Arts in Music Performance | 2006 - 2011*

**Fort Lewis College - Durango, CO**
